Spacious, bright, and full of character On Calle Belén, San Francisco, a street that still preserves the neighborhood's quiet and original spirit, this project offers a home that feels peaceful from the first day. Its two-story lofts, measuring 70 m2 and 80 m2, not only provide more space but also a more open experience and connection between the spaces, with large windows that fill every corner with natural light. The common areas function as an extension of the home, designed to be shared and enjoyed in a comfortable and familiar environment. Additionally, unlike many new projects of this type, each apartment has its own parking space, an added value that offers greater convenience for all residents who own a car. This project combines spaciousness, tranquility, and a design designed to make every day a more versatile and enjoyable experience.
